## Product Info

Product Sample Photo 6' x 8' White Cedar Panels with Lattice top

### Manufacturers PRODUCT DESCRIPTION

The Cedar 6 ft. x 8 ft. Horizontal Lattice-Top Fence Panel is constructed of Tongue and Groove White Cedar fence boards and a full one inch thick Unique and Stylish Architectural Horizontal Lattice adding an upscale appearance to any property.

- Natural Cedar can be painted or stained to match other fencing components
- Galvanized fasteners for longer life to withstand the elements
- Unique "Tee" structure at bottom of Panel is a strong foundation for added strength and peace of mind
- 2 in. x 4 in. structure adds to ease of installation giving a durable structural surface for fastener to post location reducing maintenance and allowing for a cost-saving and easy installation
- Cedar gives a feeling of warmth and compliments the natural surroundings while adding charm to your outdoor living space
- Commercial or residential uses
- 68 ½ in. panel height allows for adequate ground clearance while maintaining a 6 ft. finished installed height to conform to many local code restrictions
- Fence panel designed to provide sufficient privacy or to keep yard and garden equipment out of sight
