DESCRIPTION:

The proposal is to finish a portion of the basement for exclusive use of Unit 1 while keeping the remainder as storage and utility space. The finished space will be a family room, office, and bathroom.

FINDINGS FOR SPECIAL PERMIT:

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied:

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The allowed Floor Area Ratio in RA districts is .75. The existing house is already nonconforming at .89. Per the SZO, existing nonconformities can be expanded by Special Permit. The proposed FAR is 1.03.

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The alterations are within the home and will not be noticeable on the streetscape.

3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promoting the health, safety, and welfare of the inhabitants of the City of Somerville; to encourage the most appropriate use of land throughout the City; and to encourage housing for persons of all income levels.

The proposal is consistent with the purpose of the district, which is, "To establish and preserve quiet neighborhoods of one- and two-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts." The property will remain a two family.

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

The surrounding neighborhood is a mix of one-, two-, and three-family homes in close proximity to Tufts University, Teele Square, and a short walk to Davis Square.

The design will have no impacts on surrounding properties since it is within the footprint of the existing building.

5. Housing Impact: *Will not create adverse impacts on the stock of existing affordable housing.*

The proposal will have no impact on existing affordable housing.

6. SomerVision Plan: *Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville's neighborhoods, transform key opportunity areas, preserve and expand an integrated, balanced mix of safe, affordable and environmentally sound rental and homeownership units for households of all sizes and types from diverse social and economic groups; and, make Somerville a regional employment center with a mix of diverse and high-quality jobs. The areas in the SomerVision map that are designated as enhance and transform should most significantly contribute towards the SomerVision goals that are outlined in the table below. The areas marked as conserve are not expected to greatly increase the figures in the table since these areas are not intended for large scale change.*

The property will not contribute directly to the measurable goals and policies of SomerVision but will allow property owners to make small changes to their homes to make them more livable.
