Addendum #1 _____ **#2** _____ **#3** _____ **#4** _____

Addendum No. 1 to RFQ 17-26

Questions and Answers

1. Given the short turn around between the Q&A period and this proposal due date, we would like to request an extension if at all possible. **The deadline will not be extended at this time – sealed proposals are to be delivered to the Purchasing Department by 11:00am on Tuesday October 4th.**
2. Is there an incumbent for this work? If so, can you provide the name of that incumbent? **There is not an incumbent for this work. The City has not previously attempted to enter into a net metering agreement.**
3. In the RFP, there is a reference to a Proposal checklist as section 5.0 and again as 3.0, please verify that there is no 5.0 and this may be a typo. **That is indeed a typo – the Proposal Checklist is included as the lead to section 3.0**
4. With regards to the scope of work, is it anticipated that the contracted consultant only advise with regards to solar PV, or is there a possibility that another technology would be included in requested services? **While the City is primarily interested in solar PV, it is open to the consultant's recommendations on other opportunities for net metering credits.**
