

### Scope of Work – DPW Garage

The city of Somerville wants to construct a partition wall in the garage area of the highway department.

The mechanical repair facility for the city is expanding the operation of the repair facility into a three bay area which needs to be sectioned off from the remaining highway garage area.

The contractor shall supply all the materials and labor to construct a floor to ceiling wall which will run the entire length of the bay. There are architect drawings provided for the specifications for bidders to review the project. The project will also require two new emergency egress doors be supplied and installed with exterior heavy duty hardware. The contractor will be required to obtain all city permits and inspections to meet current code requirements.

The city is requiring completion within thirty days of award to the contractor.

Please contact Walter Whitney, Supt. of Buildings with any questions at 617-625-6600 x5210 or [wwhitney@somervillema.gov](mailto:wwhitney@somervillema.gov).
