Specifications/Scope of Work

Background

The City of Somerville is seeking to create a Network Operating Center (NOC) that is clean, cooled, secured and isolated from everyday work spaces. The purpose is to protect the major investment made purchasing servers, switches, routers and air conditioning units housed inside this area. Proper maintenance, care and environmental conditions will prolong the life expectancy of all the equipment. The entire city government benefits from these improvements.

This work will be performed in the IT NOC. IT personnel will be present 100% of the time and will maintain a constant surveillance of the work being performed.

Scope of Work

- a. Isolate the section of the existing NOC that houses the racks and servers and requires air temperature control from the section that houses personnel. This is to be achieved by constructing a 16' wide glass wall running from the raised floor to the dropped ceiling 13' from the far outside wall. This creates a room with dimensions of 13' x 16'. There is also to be a glass door in the middle of this wall for entering and exiting the equipment area. This door should be equipped with a card key entrance system for security.
- b. The air space above the dropped ceiling should be adapted so that the air in that section of the NOC gets redirected / redistributed so that it returns to the Air Conditioning system as originally designed and not out to the area where personnel are seated.
- c. Create new work spaces for personnel by constructing 2 new modular work areas to the right of the room when first entering. The dimensions of these 2 work areas should be roughly 6' wide by 8' long depending upon building and safety codes.
- d. Create a new office to the left of the room when first entering by constructing a wall (at least partially glass) approximately 16' long from the existing wall to the newly constructed glass wall. This wall should run from the top of the raised floor to the dropped ceiling. This will create an office space with the approximate dimensions of 6' wide by 16' long depending upon building and safety codes. This is to also have a glass door near the middle of the section with a combination keypad lock.
- e. Building permits must be pulled and all construction is to meet city and state building codes.

Project Goals

- To construct a Glass wall for the purpose of separating equipment from personnel work areas.
- Adapt the air flow above the equipment area so it returns to the AC units and not out into the personnel area of the office.
- Redevelop existing work areas with new modular cubicles and glass partitions.

Specifications/Quality Requirements

The following items are considered specific requirements for the successful completion of this contract.

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the "Wage Request Number" on all pages of this schedule.
- An Awarding Authority must request an updated wage schedule from the Department of Labor Standards ("DLS") if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
- The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or any sub-contractor.
- All apprentices working on the project are required to be registered with the Massachusetts Division of Apprentice Standards (DAS). Apprentice must keep his/her apprentice identification card on his/her person during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **If an apprentice rate is not listed on the prevailing wage schedule for the trade in which an apprentice is registered with the DAS, the apprentice must be paid the journeyworker's rate for the trade.**
- The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule. Awarding authorities are required to request these updates no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor. For multi-year CM AT RISK projects, awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. Contractors are required to obtain the wage schedules from awarding authorities, and to pay no less than these rates to covered workers. The annual update requirement is not applicable to 27F "rental of equipment" contracts.
- Every contractor or subcontractor which performs construction work on the project is required to submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee's name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. A sample of a payroll reporting form may be obtained at <http://www.mass.gov/dols/pw>.
- Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
- Employees not receiving the prevailing wage rate set forth on the wage schedule may report the violation to the Fair Labor Division of the office of the Attorney General at (617) 727-3465.
- Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and criminal penalties.
