CITY OF SOMERVILLE, MASSACHUSETTS
Enclosed You Will Find a Request for Qualifications For:
RFQ #17-13 On-Call Engineering Services for Various Public Works Projects

SECTION 0.0
INTENT AND PURPOSE

The City of Somerville, Massachusetts (City) is seeking to engage the services of qualified professional engineering consulting firms with demonstrated expertise and experience in various civil engineering disciplines to provide high quality professional services in a timely, cost effective manner. Services will be requested on an “as needed” basis for tasks in various civil engineering disciplines involving design of small public works projects that are presented for City approvals.

As a result of this Request for Qualifications (RFQ) process, the City intends to pre-qualify multiple professional engineering firms with expertise in some or all of the engineering disciplines listed in this document. As needs arise over a three-year period (October 2016 – September 2019), the City will invite such pre-qualified “on-call engineering firms” to submit specific price proposals tied to project-specific scopes of work as needs arise. Larger engineering projects will be bid as stand-alone projects.

Interested applicants are invited to submit qualifications and rate schedules that would apply over a three-year contract term. A contract will be awarded to each engineering firm that the City determines meets the pre-qualifications. Such contracts will be for a not-to-exceed amount per firm estimated at \$750,000 over a three-year period. It is not guaranteed that each awarded contract will be expended to its full not-to-exceed amount. Purchase orders will be issued toward these not-to-exceed amounts as specific projects are identified and negotiated based on specific fee proposals.

Elaborate format and binding are neither necessary nor desirable. All submittals will be capable of lying flat when opened. The cover and spine of each binder will clearly identify the Offeror's name, solicitation number, formal solicitation title and copy number, (e.g., "Original", "copy 2 of 3"). All binders will allow for easy removal and replacement of pages.

1.3.2 Content of RFQ Submittal Package

Each Offeror must furnish all requested information in the formats specified by the RFQ.

Letter of Transmittal

Each submittal must include a letter of transmittal that clearly states how the Offeror understands the on-call engineering role as outlined in this RFQ. The letter shall be signed by an authorized representative of the prime consultant and not more than two individuals authorized to negotiate and sign a contract with the City on behalf of the prime consultant. The transmittal letter should not exceed two pages in length. Such letter shall contain a statement that the Offeror has read, understands, and will comply with the requirements and conditions contained in this RFQ.

The Offeror shall state its understanding of this solicitation and on-call contracts in clear, succinct terms. Offeror shall state, in the Letter of Transmittal, its interest for consideration in any of the following disciplines that apply to its core competencies:

1. Roadway Design
2. Traffic Engineering
3. Geotechnical Engineering
4. Pavement/Asset Management
5. Structural Assessment (e.g. retaining walls, etc.)
6. Water/Wastewater/Storm Water Systems Design
7. Storm Water Management
8. Land Surveying / CAD Drafting

Corporate Profile (including all sub-consultants)

This Section shall include a description of the lead Offeror engineering firm and any anticipated sub-consultants, if needed. The roles of the sub-consultants shall be clearly stated. The Offeror should describe its team's overall capability to meet its commitment to successfully undertake assignments.

Past Performance and References

This section shall include a list of at least three similar, relevant service engagements performed for municipalities in Massachusetts within the past five (5) years, and any ongoing projects, listing client contacts that can speak knowledgeably about the Offeror's abilities, experience and skills. References will be asked about their overall impression of the Offeror (and sub-consultants), quality of work performed, understanding of factors affecting implementation, and the timeliness of the product delivery.

The list must include client name, address, name of contact person, position and email and telephone numbers, with a brief description of the relevant work performed for each client and highlighting the elements of the projects that are similar to this RFQ. Each sub-consultant shall provide at least three client contacts. The City's evaluation committee, at its discretion, may request further references to clarify specific claimed experience.

Key Personnel

Provide specific documentation to support the Offeror's ability to provide the necessary services, including

resumes, specific experience and qualifications of the proposed technical team members. The City will refer to this section of the submittal to determine whether or not the Offeror meets the minimum requirements (see below in section 1.6.4) for consideration on specific projects and tasks that the City will be undertaking with its on-call engineers.

A profile of key personnel must demonstrate knowledge and experience delivering comparable public sector engineering services within the past five years requiring conformance with Massachusetts DEP and MassDOT policies, general engineering practices, and all other federal, state and local regulations. The proposed key personnel are those staff members who are likely to be assigned as project managers and technical leads when the City has specific projects for which proposals are solicited from the pre-qualified on-call engineering firms.

This section will demonstrate how the Offeror and any of its proposed sub-consultants (if applicable) already work as a team. In particular, the City is interested in understanding if the personnel proposed for this on-call service arrangement work on any of the projects used as references.

The Key Personnel section should specify the primary, operational point of contact representing the Offeror in doing business with the City of Somerville for on-call engineering services.

Required Forms and Certifications

The documents listed on the Offerors' Checklist and incorporated into Section 3.0 must be completed and submitted with the Offeror's response to this RFQ.

Rate Schedule

Complete the Rate Schedule form in Section 3.0, or use an equivalent format. Either way, Offerors must sign the conditions on the rate form. Submit the Rate Schedule in a separately sealed envelope labeled RFQ #17-13 On-Call Engineering Services for Public Works Projects, Fee Schedule, and the Offeror's name.

The purpose of the fee schedule is to give the evaluation committee a good sense of labor costs that will affect price proposals requested over the course of the contract term, and to inform the City's project planning efforts.

The rate schedule data will not be considered when initially evaluating a submittal. After the qualifications of each Offeror have been rated, the procurement officer will open and review the rate schedule with the evaluation committee.

As outlined in Section 0.0, actual price proposals will not be solicited until a contracted on-call engineering firm is asked by the City for a project specific proposal as outlined above. However, hourly rates and any other fees should be transparent in the rate schedule and well understood up-front.

Note that the City intends to aggressively negotiate low overhead and mark-up costs for sub-consultants particularly when the work primarily involves only the sub-consultant.

1.6 Evaluation Methodology

The Evaluation Criteria that will be used to assess and rate the qualifications of Offerors are outlined below in Sections 1.6.4 and 1.6.5:

1. Minimum Criteria, which must be met by proposers in order to be considered responsive.
2. Comparative Evaluation Criteria, which will be applied to responsive proposers who have met the Minimum Criteria.

1.6.1 Evaluation of Qualifications Submittals

An evaluation committee will first examine all submittals for acceptability and comparison to the Minimum Criteria. Any submittal determined to be non-responsive to any of the Minimum Criteria of this RFQ will be disqualified without further evaluation. The committee may determine that the non-responsiveness is not substantial and can be clarified. In such cases, the committee may allow the proposer to make minor corrections.

Subsequently, the evaluation committee will examine all submittals that meet the minimum criteria in comparison to the comparative evaluation criteria. Each submittal will be ranked based on the comparative evaluation criteria. The City reserves the right to involve an outside consultant in the selection process. The Committee will assign a rating of Highly Advantageous, Advantageous, or Not Advantageous to the comparative evaluation criteria.

The City may request additional information from the Offerors to ensure that the Offeror has the necessary resources to perform the required services. The evaluation committee may request interviews with the project leader identified by the Consultant as part of the evaluation process or prior to awarding the contract. After opening and reviewing all submittals, and following any interviews, the evaluation committee will decide which Offerors will be pre-qualified as on-call engineers and will be presented with an on-call contract with the City.

The on-call contract will serve as a vehicle through which specific projects will be assigned in accordance with the process outlined in the following section.

1.6.2 Proposal Solicitation and Evaluation for Specific Projects

As the City identifies and prepares scopes of work for specific public works engineering projects and tasks, the City will invite pre-qualified on-call engineers to submit project specific proposals and fees. The City will evaluate these project-specific proposals and award the specific project(s) to the most highly advantageous on-call engineer(s) based on a project-specific evaluation of fees and best fit for the project in accordance with the comparative criteria in this RFQ.

1.6.3 Fee Negotiations and Purchase Order Issuance

Once an on-call engineering firm is selected among other pre-qualified on-call engineers and successful fee negotiations have concluded for the specific project, the City will generate a purchase order that will apply to the overall not-to-exceed contract limit (estimated to be \$750,000 for a three-year period). The issuance of the purchase order will be tantamount to a Notice to Proceed, at which time the assigned on-call engineering firm will be expected to begin work on the specified project or task.

1.6.4 Minimum Criteria / Quality Requirements

In order to provide the services required, it is essential that the Offeror's Key Personnel meet the following minimum criteria:

1. Project Supervisor must be a Licensed Site Professional, Surveyor or Massachusetts Registered Professional Engineer licensed in the appropriate discipline.
2. Project Manager must be a Massachusetts Registered Professional Engineer and experienced in all aspects of the appropriate engineering discipline.

Justification of the above minimum requirements must be included in the RFQ Submittal Package in the Key Personnel section.

If the undersigned is selected, this form will be attached to the contract or subcontract and the certifications made herein shall be incorporated as part of such contract or subcontract. **Complete this form and sign and date where indicated below on page 2.**

Definition of “Living Wage”: For this contract or subcontract, as of 7/1/2016 “Living Wage” shall be deemed to be an hourly wage of no less than \$12.31 per hour. From time to time, the Living Wage may be upwardly adjusted and amendments, if any, to the contract or subcontract may require the payment of a higher hourly rate if a higher rate is then in effect.

Such notice shall be posted in each location where services are performed by covered employees, in a conspicuous place where notices to employees are customarily posted.
3. The undersigned shall maintain payrolls for all covered employees and basic records relating hereto and shall preserve them for a period of three years. The records shall contain the name and address of each employee, the number of hours worked, the gross wages, a copy of the social

The **Design Professional** will include these forms and documents in its Project Manual. It is the responsibility of the **Design Professional** to ensure that all such documents are included in the final Project Manual. Any costs incurred as a result of the failure of the **Design Professional** to include any such documents will be borne by the **Design Professional** and not charged to the **City**, where such failure is the fault of the **Design Professional**. The **Design Professional** may propose changes to these **City**-generated forms and documents; however, implementation of such changes are subject to the unilateral approval of the **City**. No changes may be made to such documents without the prior

written consent of the **City**. The **Design Professional** shall prepare and submit to the **City** for approval the entire Project Manual. The **Design Professional** is responsible for ensuring that the Construction Documents comply with all statutory requirements.

3.5.2. Additional Bidders. The **Design Professional** shall assist the **City** in obtaining bids if, in the opinion of the Contracting Department, an insufficient number of persons requested the Project Manual. The **Design Professional** will notify "eligible" and "responsible" persons (as those terms are defined in the M.G.L. c. 149, §44A and referred to in M.G.L. c. 30, §39M) of the Invitation to Bid.

3.5.3. When Lowest Bid Exceeds Total Construction Cost. If the lowest bona fide bid by a Contractor exceeds the total construction cost of the Project as set forth in the approved Statement of Probable Construction Costs by more than ten percent (10%), then upon the request of the **City**, the **Design Professional** will revise the Plans and Specifications in consultation with the **City** to reduce or modify the quality or quantity, or both, of the Work so that the total construction cost of the Project will not exceed the total construction cost set forth in the Statement of Probable Construction Costs by more than ten percent (10%). All revisions pursuant to this paragraph shall be at the **Design Professional's** sole cost and expense (which cost and expense include, but are not limited to the **Design Professional's** time, the cost of reprinting the Project Manual, and the cost of re-advertisement of the Project).

3.5.4. Pre-Bid Conferences. The **Design Professional** shall attend all pre-bid conferences.

3.5.5. Investigation of Bidders. The **Design Professional** shall investigate, at minimum, the lowest Bidder. The investigation shall include, but is not limited to, reviewing the files maintained by the Division of Capital Asset Management, or any other governmental agency charged with maintaining such documents related to such Bidder, telephoning or writing owners of the Bidder's prior projects, telephoning or writing Design Professionals from such prior projects, visiting the sites of such other projects and checking all other appropriate references. The **Design Professional** shall provide the **City** with a detailed letter of approval or disapproval of such Bidder. The letter must include relevant language from the appropriate state laws regarding the eligibility and responsibility of Bidders (i.e., M.G.L. c.149, §44A(1), M.G.L. c. 30, §39M(c), or, if appropriate, M.G.L. c. 29, §29F). If the **Design Professional** disapproves of the lowest Bidder, then the **Design Professional** must investigate the next lowest Bidder in the same manner described above, and continue to investigate each

successive low Bidder until a Bidder is approved. For every Bidder investigated, the **Design Professional** must provide the **City** with a detailed letter as described above.

3.5.6. Preparation of Contract. To the extent required, the **Design Professional** shall assist the Contracting Department in the preparation of the construction contract.

3.6. CONSTRUCTION PHASE-- ADMINISTRATION OF THE CONSTRUCTION CONTRACT.

3.6.1. Commencement. The Construction Phase commences with the full execution of the contract for construction and terminates on the date of expiration of all of the guarantees and warranties provided by the Contractor to the **City**.

3.6.2. Change in Design Professional's Duties, Etc. Construction Phase duties, responsibilities, and limitations of authority of the **Design Professional** shall not be extended without written agreement of the **City** and the **Design Professional**. Any restrictions or modifications to the **Design Professional's** duties and responsibilities can be imposed by the **City** without the consent of the **Design Professional**.

3.6.3. Pre-construction Conferences. The **Design Professional** shall attend all pre-construction conferences.

3.6.4. Site Visits. The **Design Professional** shall visit the Site at intervals appropriate to the stage of construction, but no less than once a week, or as otherwise agreed by the **City** and the **Design Professional**, to become familiar with the progress and quality of the Work and to determine with care if the Work is proceeding in accordance with the requirements of the Contract Documents. The **Design Professional** shall cause its engineering and other consultants to make similar Site visits, at such times as may be required for observation of portions of the Work designed and/or specified by them. The **Design Professional** shall not be required to make continuous on-site inspections to check the quality or quantity of the Work. The **Design Professional** shall promptly submit to the **City** a detailed written report subsequent to each on-site visit, which shall include any observation of material deviations by the Contractor or subcontractors from the requirements of the Contract Documents.

3.6.5. Job Meetings. There shall be no less than one job meeting per week. The **Design Professional** shall attend all job meetings. The number of meetings per week will depend on the complexity of the Project at a particular stage, the problems encountered on the Project, or the **City's** request that additional meetings be held. The **Design Professional** shall also be required to be present when governmental authorities having jurisdiction over the Project visit the Site to inspect the Work. The **Design Professional** will exercise good care and diligence in discovering and promptly reporting to the **City**, as well as to the Contractor, any defects or deficiencies in the Work.

3.6.6. Construction Means, Methods, Etc. The **Design Professional** shall not have control over or charge of and shall not be responsible for construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the Work. However, the **Design Professional** shall promptly report to the **City** any perceived irregularities.

3.6.7. Contractor's Schedule. Except as otherwise provided in this Agreement, the **Design Professional** shall not be responsible for the Contractor's schedules or failure to carry out the Work in accordance with the Contract Documents, except to the extent that such failure is caused by the **Design Professional**. Except as otherwise provided in this Agreement, the **Design Professional** shall not have control over or charge of acts or omissions of the Contractor, its Subcontractors, or their agents or employees, or of any other persons performing portions of the Work. However, nothing in this paragraph shall relieve the **Design Professional** of its obligations to the **City** elsewhere in this Agreement. The **Design Professional** shall review all schedules presented by the Contractor and advise the **City** as to the appropriateness of same.

3.6.8. Communications. The **City** and the Contractor may communicate through the **Design Professional**. Communications by and with the **Design Professional's** consultants shall be through the **Design Professional**, unless the **City** deems it necessary or expedient to speak directly to the consultants.

3.6.9. Applications and Certifications for Payment. Based on the **Design Professional's** observations of the Work and evaluations of the Contractor's applications for payment, the **Design Professional** shall review and certify the appropriate amounts due the Contractor within five (5) business days after receipt of the Contractor's application for payment, and such certifications shall be in the form requested by the **City**. The **Design Professional's** certification for payment shall constitute a representation to the **City** based on the **Design Professional's** observations at the site and on the data comprising the Contractor's application for payment that

the Work has progressed to the point indicated and the quality of Work is in accordance with the Contract Documents. The foregoing representations are subject to minor deviations from the Contract Documents correctable prior to completion and to specific qualifications expressed by the **Design Professional**. The **Design Professional** is required to review and validate the certified payrolls. The **Design Professional** is required to reconcile the applications for payment with the certified payrolls. The issuance of a certificate for payment shall further constitute a representation that the Contractor is entitled to payment in the amount certified. Timely payment of Contractor is required by M.G.L. c. 30, §39K; therefore, the **Design Professional** shall establish office procedures assuring either immediate mail or messenger delivery of the approved applications for payment to the **City**. Notwithstanding the foregoing, the Mayor's Office of Strategic Planning and Community Development (SPCD) shall be responsible for monitoring and certifying construction payrolls for compliance with prevailing wage requirements (a) if the Contract is a federally funded contract subject to federal Davis Bacon and Related Acts; and/or (b) if SPCD is the Contracting Department.

3.6.10. Rejection of Work. The **Design Professional** shall have the responsibility, obligation, and authority to reject Work which (1) does not conform to the Contract Documents; or (2) the **Design Professional** believes to be defective; or (3) the **Design Professional** believes will not produce a completed Project that conforms to the Contract Documents or that will prejudice the integrity of the design concept of the completed Project as a functioning whole as indicated by the Contract Documents. The **Design Professional** shall promptly notify the **City** of such rejection. Whenever the **Design Professional** considers it necessary or advisable for implementation of the intent of the Contract Documents, the **Design Professional** will have the responsibility, obligation, and authority to require additional inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not such Work is fabricated, installed, or completed; provided, however, the **Design Professional** must obtain the **City's** prior written approval of any such special inspection or testing. However, neither this authority of the **Design Professional** nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the **Design Professional** to the Contractor, Subcontractors, Suppliers, other persons performing portions of the Work.

3.6.11. Submittals. The **Design Professional** shall review and approve or take other appropriate action upon the Contractor's submittals such as Proposed Change Orders, Shop Drawings, Product Data, and Samples, for the purpose of: (a) determining compliance with applicable laws, statutes, ordinances, codes, orders, rules, and regulations; and (b) determining whether the Work, when completed, will be in compliance with the requirements of the Contract Documents. The **Design Professional's** action shall be taken with such reasonable promptness as to cause no delay in the Work taking into account the time periods set forth in the latest schedule prepared by the Contractor and approved by the **Design Professional** and, in any event, such action shall be taken within fourteen (14) days after submittal to the **Design Professional**. The **Design Professional** shall indemnify the **City** for any monies paid by the **City** to the Contractor as a result of the **Design Professional's** delay in taking appropriate action, as described above, where such delay is not caused in any part by the **City**. Review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities or for substantiating instructions for installation or performance of equipment or systems designated by the Contractor, all of which remain the responsibility of the Contractor to the extent required by the Contract Documents. The **Design Professional's** review shall not constitute approval of safety precautions or, unless otherwise specifically stated by the **Design Professional**, of construction means, methods, techniques, sequences, or procedures. The **Design Professional's** approval of a specific item shall not indicate approval of an assembly of which the item is a component. When professional certification of performance characteristics of materials, systems, or equipment is required by the Contract Documents, the **Design Professional** shall be entitled to rely upon such certification to establish that the materials, systems, or equipment will meet the performance criteria required by the Contract Documents.

3.6.12. Change Orders and Work Change Directives. The **Design Professional** shall prepare Change Orders and Work Change Directives, with supporting documentation and data if deemed necessary by the **Design Professional** for the approval and execution in accordance with the Contract Documents, and may authorize minor changes in the Work not involving an adjustment in the Contract Sum or an extension of the Contract Time (which is the time in which the Work reaches final completion) and which are not inconsistent with the intent of the Contract Documents.

3.6.13. Interpretations, Clarifications, and Decisions of the Design Professional.

3.6.13.1. The **Design Professional** will interpret, clarify, and decide matters concerning performance under and requirements of the Contract Documents on written request of either the **City** or the Contractor. The **Design Professional's** response to such requests will be made with reasonable promptness and within the time set forth herein. Any such written interpretations, clarifications, or decisions shall be binding on the **City** and the Contractor. Interpretations, clarifications, and decisions of the **Design Professional** shall be consistent with the intent of and reasonably inferable from the Contract Documents and shall be in writing or in the form of drawings. The **Design Professional** may, as the **Design Professional** judges desirable, issue additional drawings or instructions indicating in greater detail the construction or design of the various parts of the Work; such drawings or instructions may be effected by a Field Order or other notice to the Contractor, provided such drawings or instructions are reasonably consistent with the previously existing Contract Documents. The **Design Professional** shall not be liable for results of interpretations, clarifications, and decisions so rendered in good faith and in the absence of negligence by the **Design Professional**.

3.6.13.2. Time Limit for Rendering Decisions. The **Design Professional** shall render written interpretations, clarifications, and decisions within a reasonable time, but in no event more than seven (7) days after receipt of same.

3.6.14. Aesthetic Effect. The **Design Professional's** decisions on matters relating to aesthetic effect must be consistent with the **City's**. The **Design Professional** shall advise the **City** in matters relating to aesthetic effect; however, the **City's** decision in these matters shall be final.

3.6.15. Claims.

3.6.15.1. Initial Referral. All Claims, the bases of which arise prior to final payment or the earlier termination of the Contract, shall be referred initially to the **Design Professional** for action as provided herein.

3.6.15.2. Time Period and Action. The **Design Professional** shall review Claims and shall do one of the following within seven (7) days of receipt of the Claim:

3.6.15.2.1. defer any action with respect to all or any part of a Claim for the purpose of requesting and receiving additional information from either party;

3.6.15.2.2. decline to render a decision for any reason which it deems appropriate (including, but not limited to, the fact that the Claim involves allegations of fault on the part of the **Design Professional**); or

3.6.15.2.3. render a decision on all or a part of the Claim.

If the **Design Professional** requests additional information, the **Design Professional** shall take action with respect to the Claim no later than seven (7) days after receipt of the additional information. The **Design Professional** shall notify the parties in writing of its disposition of such Claim. If the **Design Professional** decides that the Work relating to such Claim should proceed regardless of its disposition of such Claim, the **Design Professional** shall issue to the Contractor a written order to proceed.

3.6.15.3. Decisions.

3.6.15.3.1. Decisions by the City or the Design Professional. (*Reference: M.G.L. c. 30, §39P*). In every case in which this Contract requires the **City**, any official, or its **Design Professional** to make a decision on interpretation of the Specifications, approval of equipment, material or any other approval, or progress of the Work, the decision shall be made promptly and, in any event, no later than seven (7) days after the written submission for decision; but if such decision requires extended investigation and study, the **City**, the official, or the **Design Professional** shall, within seven (7) days after the receipt of the submission, give the party making the submission written notice of the reasons why the decision cannot be made within the seven-day period and the date by which the decision will be made.

3.6.15.4. Resolved Claims. If a Claim is resolved, the **Design Professional** shall obtain or prepare the appropriate documentation and provide the **City** and the Contractor with a copy of same.

3.6.16. Determination of Substantial and Final Completion. On behalf of the **City**, the **Design Professional** shall conduct inspections, determine the dates of Substantial Completion and final completion, and shall issue a certificate of Substantial Completion, with the prior written consent of the **City**. Such inspections shall include a reasonable number of Site visits by the **Design Professional** and the **Design Professional's** engineering

consultants. The **Design Professional** shall provide to the **City** a written report of all findings with recommendations for appropriate action. The **Design Professional** will receive and review (and approve or disapprove, as the case may be) written guarantees, operating manuals, spare parts lists, value charts, and related documents required by the Contract Documents to be assembled by the Contractor. When the **Design Professional** is satisfied that all such documents are complete as required by the Contract Documents, the **Design Professional** shall issue a final certificate of payment.

3.6.17. Inspection Prior to End of Guarantee Period. Notwithstanding any other provision in this Agreement, at least thirty (30) days prior to the expiration of the Contractor's guarantee period, the **Design Professional** shall assist the **City** in inspecting the Project at the **City's** request and provide to the **City** a written report of all findings with recommendations for appropriate action. Such inspections shall include a reasonable number of Site visits by the **Design Professional** and the **Design Professional's** engineering consultants.

3.6.18. Certificate of Occupancy. The **Design Professional** shall be responsible for satisfying any and all requirements with respect to services of an Design Professional necessary to obtain a permanent certificate of occupancy under the Commonwealth of Massachusetts State Building Code.

3.6.19. Limitation on the Design Professional's Responsibilities.

3.6.19.1. Neither the **Design Professional's** authority to act under the provisions of the Contract Documents nor any decision made by the **Design Professional** in good faith to exercise or not to exercise such authority shall give rise to any duty or responsibility of the **Design Professional** to the Contractor, any Subcontractor, any Supplier, any surety for any of them, or any other person.

The **Design Professional** will not have control over or charge of and will not be responsible for construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Contractor's responsibility as provided in Article 5 of the General Terms and Conditions. The **Design Professional** will not be responsible for the Contractor's failure to carry out the Work in accordance with the Contract Documents. The **Design Professional** will not have control over or charge of and will not be responsible for acts or omissions of the Contractor, Subcontractors, Suppliers, or of any other persons performing portions of the Work.

ARTICLE 4

DESIGN PROFESSIONAL'S ADDITIONAL SERVICES

4.1. IN GENERAL. The services described hereunder shall be paid for by the **City** in addition to the compensation for Basic Services. Prior to performing any service which the **Design Professional** claims to be an Additional Service, the **Design Professional** shall notify the **City** in writing that the service is an Additional Service, and shall provide with such notice an estimate of the additional compensation which will be payable to the **Design Professional** for performing such service. Such service shall not be performed, nor shall such estimate be exceeded, without the **City's** prior written approval. Failure to so notify the **City** and obtain the **City's** written approval shall constitute a waiver of the **Design Professional's** claim for additional compensation on account of such services. These services shall be provided only if authorized or confirmed in writing by the **City**. Notwithstanding anything to the contrary in this Agreement, the **City** shall not be responsible to pay and the **Design Professional** shall not be entitled to receive compensation for any additional service if such service was required due to the fault of the **Design Professional** or the **Design Professional's** failure to perform in accordance with the terms of this Agreement. Neither the **Design Professional** nor its consultants shall be compensated for any services involved in preparing changes that are required for additional Work that should have been anticipated by the **Design Professional** in the preparation of the Construction Documents, as reasonably determined by the **City**.

4.2. LIST OF ADDITIONAL SERVICES. The following list of Additional Services is intended to be illustrative and not considered all inclusive.

4.2.1. Making major revisions in Plans, Specifications, or other documents when such major revisions are:

4.2.1.1. inconsistent with approvals or instructions previously given by the **City**, including revisions made necessary by adjustments in the **City's** program or project budget;
